

# TREGOLLS ACADEMY

14th January 2019

## Authentic Outcomes

Helford class enjoyed a fantastic morning of "survival" for their launch day with the essential question: "Could you survive in a cave?" Pupils were hunter-gatherers and went on a treasure hunt to find stone age food - they discussed if it was possible to eat snails and nettles! Children built a fire with the aid of Mr Long and tried their hand at using a bow-drill (an ancient method of making fire). They also successfully built a shelter from wood and tarpaulin they found lying around on the field.

Truro class had a brilliant day with their Harry Potter themed launch day. The children designed their own house crests, played Quidditch and watched Harry Potter!

Tamar class had a visit from Winston Churchill who gave some great tips on writing speeches and helped the children learn WW2 games.

Fal and Mylor class completed superhero missions and had visits from Dr Nick and Dr Lavanya who are every day heroes - doctors!

Camel class learnt how to become chefs using local Cornish food with Little Kitchen Magicians. The children made Cornish soup, fish goujons, beef burgers, coleslaw and Cornish Fairings!

## Sporting Stars

Well done to our basketball team for the outstanding effort and great team work they showed at the Primary Basketball Festival. We successfully won 2 games! A great afternoon of basketball.

This morning, a few children went to Truro School and took part in the swimming gala. They all performed exceptionally well and worked really hard. Congratulations to Oscar who won a gold medal in the butterfly!

## 6R Star of the Week

Congratulations to Toby, George, Alice, Paul, Francie and Zhayne for winning '6R Star of the week' certificate's in last weeks assembly!

Best wishes,  
Anastasia
